## Editors Corner...

## Contents :

Another issue comes and goes and SUFOG carries then flag for UFOlogy. With your last magazine, you will have received details about our DVD Library. Please support this new venture that I hope you will enjoy. Also, at each meeting, there will be a special draw. I have given all members a number from 1 - 40 and a FREE DVD will be sent to the winner. That's right, a free DVD give away every month. The DVD will be taken from my DVD collection of around 650+ items. Hopefully, you will receive a DVD that you have never seen before from a collection going back to the 1950's.. The first draw will be made at the May group meeting.

The front cover is a montage of the images captured by George over Portsmouth harbor in 2006. We have uploaded the flying humanoid pictures onto our web site and can be viewed at [www.sufog.freemove.co.uk](http://www.sufog.freemove.co.uk) along with other group information.

It appears that the MOD may have shot itself in the foot with regards to the Condign Report. It appears that it has let the cat out of the bag with regards to the American's secret black projects. On the 14th June, Newsnight did a special 4 minute slot headlined **Report fuels spy plane theories** and went on to say that the report said... 'The MoD report from 2000 says the USAF plans to produce "highly supersonic vehicles at Mach 4 to 6" and hypersonic unmanned craft which will fly in the upper atmosphere and in space. In 2003, the USAF revealed it had been working on a hypersonic unmanned craft - the Falcon - but denied building an Aurora-like Mach 4 to 6 aircraft'. So, has the MOD shot itself in the foot... Well the American's are not too happy and this has opened up a can of worms...

In the next issue will be a report on the SUFOG summer BBQ and skywatch and also your editor will be looking at the connection of postage stamps and UFO's. There will be an update of the UFO report on page 24 of the magazine from the New Milton Advertiser & Lymington Times and Hampshire Police.

### Five UFO Experts Praise: Majic Eyes Only.

BROOMFIELD, CO April 25, 2006 If you were waiting for more evidence that Ryan S. Wood's new book *Majic Eyes Only: Earth's Encounters With Extraterrestrial Technology* was required reading, below are comments from Paul Davids, Bruce Maccabee, PhD, Stephen Bassett, Stan Gordon and Steven Greer, MD.

I've spent fifteen years trying to prove just one single UFO crash retrieval case -- ROSWELL -- and I applaud, but tremble at Ryan Wood's chutzpah in trying to prove a very large number of them in a single book. However, one thing is certain: Ryan Wood and his father, Dr. Robert Wood, have established themselves most convincingly as a prodigious, thorough, insightful, honest, uncompromising, educated -- and yes, let's use the "B" word -- brilliant team of UFO investigators who are to UFO's what the GOSPEL OF JUDAS team has become to theological research. With *MAJIC EYES ONLY*, in his solo flight as book author, Ryan shows us all the nuggets -- UFO cases that are contenders for genuine crashes of extraterrestrial technology, and he begins the investigation and dialogue that will lead us to determine one day which of the "ore samples" will prove to be the long lost gold.

Paul Davids, Executive Producer and Co-Writer of *ROSWELL, the Showtime Movie*.

I found *Majic Eyes Only* to be a very interesting compilation of reports of crashes. I had no idea that there were this many credible incidents.

Dr. Bruce Maccabee, Author *UFO/FBI Connection & UFOs Are Real: Here Is The Proof* With *MAJIC Eyes Only* Ryan Wood has made a major contribution not only to the study of extraterrestrial-related phenomena, but to exopolitics. The political and social implications of the technology embedded in the off-world craft recovered by several nations, including the United States, are almost beyond measure. The energy and

propulsion systems behind the known performance characteristics of these vehicles could transform the human condition and reverse in less than a generation the environmental degradation taking place worldwide. Evidence mounts the United States government has re- or reverse-engineered this technology. But its availability to all of humanity is blocked by a 58-year truth embargo alluded to in documents leaked over several decades from within the government itself. Ryan Wood and his father, aerospace physicist Dr. Robert Wood, have emerged as the leading experts in the world on these documents and the recovery of alien crashed vehicles. This is absolutely essential reading for every member of Congress and every member of the political press in America. The well being of the planet and the human race rests upon getting at technology held hostage by a truth embargo the United States government still refuses to end.

Stephen Bassett, Executive Director, Paradigm Research Group, X-PPAC ...

While the public has heard about Roswell and Kecksburg, most individuals are unaware that there are many other accounts of strange objects having fallen from the sky, and reportedly recovered both in the United States and abroad. *Majic Eye's Only*, presents to the reader a great deal of new and little known information concerning the UFO crash recovery controversy.

Stan Gordon, Author *Kecksburg*

In this new book, Mr. Wood has provided an important historical overview of the many UFO Crash/Retrieval events, dating to the late 1800s, and continues the work of late Leonard Stringfield in this regard. We call on all witnesses to such events to come forward and disclose the truth about such events - it is time for humanity to know that we are not alone.

Steven M. Greer MD , Executive Director for The Disclosure Project...

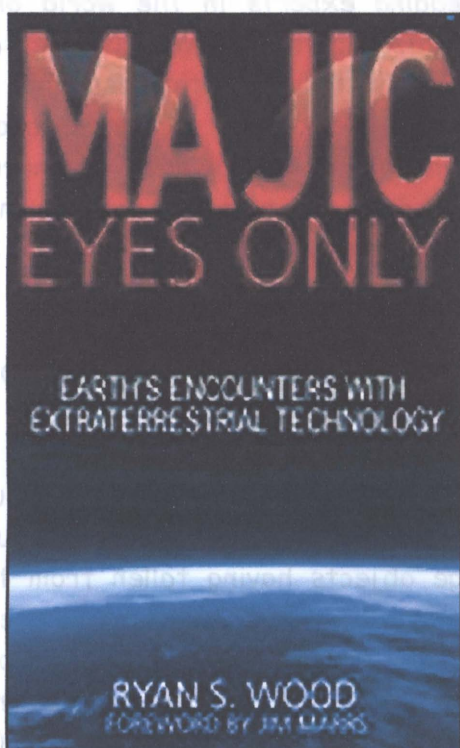

Below is a brief summary of the new book.

see [www.majiceyesonly.com](http://www.majiceyesonly.com) for

purchase details.

The idea that major governments have covered up the true nature of the UFO phenomenon for more than half a century through unprecedented secrecy, deception and intimidation strikes many reasonable citizens as preposterous. Yet, this book provides a wealth of evidence, including declassified and leaked government documents and credible eyewitness testimony, which supports the uncomfortable truth of this "preposterous" notion.

*MAJIC EYES ONLY* is a landmark synthesis and review of every credible UFO crash retrieval event uncovered worldwide to date. Assembling data from his own research and numerous other investigators, including crash retrieval pioneer Leonard Stringfield, the author presents 74 UFO crashes from 1897 to the present, supported by compelling evidence in the form of official documents, eyewitnesses and in some cases physical evidence. Incidents do vary in quality, evidence, and therefore authenticity.

You can also purchase your autographed copy of the book and *The Secret* DVD via the website at

[www.majiceyesonly.com](http://www.majiceyesonly.com) or online just the book at [www.amazon.com](http://www.amazon.com).

April 2006 News Letter...

Nick Pope, former UFO desk officer at the MOD and author of several UFO books argues that interest in UFOs is returning.

### UFOs Are Back...

UFOs are back. After a period when interest in the subject had waned, the topic is suddenly generating a vast amount of media coverage. So what's going on and what are the implications for publishers and authors?

First of all, I should declare an interest. I used to run the British Government's UFO Project at the Ministry of Defence. I've written four books on the subject, all of which were agented (can I use a noun as a verb if my editor isn't looking?) by Andrew Lowney.

Interest in UFOs is cyclic. The last peak came in the mid-Nineties. In 1995, the so-called 'alien autopsy' film was

released: grainy black and white footage that some said showed a vaguely humanoid extraterrestrial being cut open by US military surgeons. Believers claimed this was the proof they'd been waiting for, while sceptics said that the film was a clever hoax. 1997 saw the 50th anniversary of America's first 'flying saucer' sighting and of the Roswell incident, where something (alien spacecraft or weather balloon, depending on who you believe) crashed in the New Mexico desert. Publishers, the media and the public were intrigued by all this and numerous books appeared. They did well. Authors such as Timothy Good were on the bestseller lists and my own first effort 'Open Skies Closed Minds' got to number three in the hardback non-fiction list and stayed in the top ten for ten weeks.

However, in publishing as in economics, every boom is followed by a bust. The market was saturated and the view was that publishers had overbought. Interest in UFOs fell away, replaced perhaps by an interest in magic. Flying saucers and aliens gave way to the fictional worlds of Harry Potter, Narnia and The Lord of the Rings. But now, things are changing. Perhaps driven by interest in Dan Brown's 'The Da Vinci Code', people are rediscovering their interest in real life mysteries.

Interest in UFOs is rising quickly and steadily. This is being fuelled by the Freedom of

Information Act - the MOD is being bombarded with requests for documents on UFOs, and a look at their website confirms this is virtually the most popular type of request they receive. The media have been quick to recognise the resurgence of interest. Over the Christmas period several national newspapers ran major features on the 25th anniversary of Britain's most famous UFO sighting, the Rendlesham Forest incident. Ant & Dec's new movie 'Alien Autopsy' is a fictional retelling of the story that sparked so much interest in 1995. Various UFO-related documentaries are in pre-production. But the real clue is in the way the subject is spilling out into a wider arena. The Science Museum have been running an exhibition about alien life, and my own recent TV appearances include not just documentaries, but popular entertainment programmes such as 'The New Paul O'Grady Show' and 'Totally Doctor Who'.

All the signs are there: the UFO is back. It remains to be seen how the publishing industry will respond, but I suspect the next few years will be an interesting time. Oh, and next year sees the 60th anniversary of the Roswell crash!

Andrew Lownie writes a monthly newsletter, which includes details of the Agency's latest news as well as advice for authors.

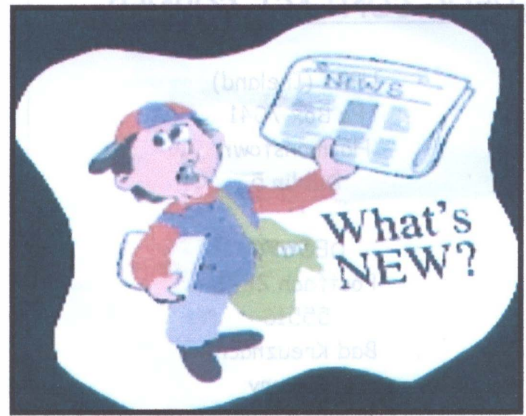

Best wishes,  
Nick Pope

### UK UFO Reports...

#### **Project Condign - MOD UFO Study (New! Added 10 May 2006)**

The Ministry of Defence has revealed details of a formerly secret UFO study. Codenamed 'Project Condign', the report is the most highly classified UFO document ever to have been released under the UK's Freedom of Information Act. Although I was involved in the discussions that led to the commissioning of this report, I had left the MOD's UFO Project by the time the study was undertaken and was not involved. I am certainly not the author, as has been suggested by various UFO researchers and journalists. The report runs to over 400 pages and delves into some fairly controversial areas, theorising about electrically-charged atmospheric plasmas, and temporal lobe disorders. The difficulty with this is that there's no scientific consensus on such matters, and as a rule of thumb, one shouldn't try to explain one unknown phenomenon by citing evidence of another! That said, the release of this report should be welcomed by all those with an interest

in the UFO mystery, be they sceptics or believers. It will further the debate on this issue and demonstrates the MOD's ongoing commitment to releasing as much UFO documentation as possible, under the Freedom of Information Act. The media are having a field day with this story, and I've been doing numerous TV and radio interviews. The UFO mystery is back in the spotlight and the release of this report shows that there were those of us in the MOD who believed that the UFO phenomenon was worthy of serious, in-depth study. The full report will be released on the MOD's website on or before 15 May.

### BRECON BEACONS...

7th May 2006...

I am part of a Hill walking Club and we took photographs at the Black Mountains and on the Sunday went kayaking and rowing on a very sunny weekend on May 7, 2006, around noon. I did not notice anything strange or hear anything in the skies until I developed the photographs. There is a triangle stealth bomber shaped UFO in one picture hovering over a mountain range. In another picture something seems to land and in one of the team's photos the object is also there. I have inverted the negatives and it shows that the object is a solid. We were camping outside using inflatable pillows that gave off static electricity when touched after the sighting. Thanks to Peter Davenport NUFORC <http://www.nuforc.org>

### Washington (Tyne-N-Wear)

May 5, 2006...

I was lying on a hammock in my back garden, making the most of a rare warm day for this time of year. I saw a small white ball at about 45 degrees moving quickly in an arc from north to south. The 'ball' slowed to a stop almost directly over my head and stayed in that position without any movement at all for about ten minutes. It then moved a few degrees south, then north, then south again. I lost sight of it when it disappeared behind some clouds. Based on observing aircraft (737 type) landing at the nearby airport at roughly the same height I would estimate the object to be quite small, maybe 10 feet across. There was no sound associated with the ball. I observed the object for twenty minutes and saw a Tornado fighter jet pass low over my position. It is VERY unusual to see military aircraft in this area - especially flying so low. Thanks to Peter Davenport NUFORC <http://www.nuforc.org>

### The Reading Evening Post 12/5/2006 UFO Cannot Believe It!

A space odyssey of UFO sightings has been zooming across our radar courtesy of eagle-eyed readers.

Your calls flooded in after Pip Neal spotted a mysterious green ball in the sky over Southcote on Friday, April 7, and Vicky Chapman saw a glowing red orb over Basingstoke Road on Good Friday (Post, Wednesdays, April 19 and 26, respectively).

It's not the first time Mr Neal has seen unexplained things in the sky. He also told us that he saw a triangle of

light in the skies over Lincoln two decades ago.

Gloria Fisher, a carer from Meadow Road, Earley, called to say she and husband, Roy, a window-maker, spotted the same phenomenon, also 20 years ago, while camping in Wittering, Sussex.

She said: "We looked up in the sky and saw a triangle of white light as though joined but you could see through the middle. It was in complete formation but whether it was a Government experiment, you just don't know.

"We haven't really mentioned it too much to people. "My husband, if you do see things, says it's probably clouds or aeroplanes and the last thing you think about is UFOs but you do think: 'Ooh, I wonder'." Peter Brake, 77, revealed his experiences after reading about the Good Friday sighting in the Post. "The first one was mind-boggling, like a world just going along," he said of his sighting of a multicoloured globe while in his Whitley Wood garden some years ago. "It wasn't smooth, it was like in a square pattern and lit up. I didn't know quite what to make of it. "When it got level with me it was there one second and suddenly went away from me within two seconds." Then last September the retired forestry worker spied a deep red star-like object moving slowly over his Falmouth Road garden. But perhaps the most exciting phenomenon has been by former coffee shop worker Janet Cryer, from Woodley who witnessed a bright, whooshing light roaring past her first-floor window. She couldn't sleep at around 1am on Tuesday, April 18, when suddenly she heard a noise "like an underground train, a roar and a whoosh at the same time" before a greeny-coloured light flew past her open-curtained window. "Immediately I thought it was a meteorite and I was waiting for a bang," said the 58-year-old. "It was faster than a helicopter and nothing like an aircraft. The day after that I saw all those stories in the paper." Mrs Cryer, of Hanwood Close, added: "My late husband used to long to see a UFO, he used to keep all the clippings."

Norman Baker: To ask the Secretary of State for Defence in what capacity Mr. Nick Pope was employed by his Department between 1991 and 1994. [63392]

Mr. Touhig: From 1991 to 1994 Mr. Pope worked as a civil servant within Secretariat (air staff). He undertook a wide range of secretariat tasks relating to central policy, political and parliamentary aspects of non-operational RAF activity. Part of his duties related to the investigation of unidentified aerial phenomena reported to the Department to see if they had any defence significance.

NEWSPAPER REVIEWS  
BY ERNIE SEARS.

**MAIL ON SUNDAY...** 16th April : ET, Shine Home...It appears that Steven Spielberg has 'seen the light;' and is backing the search of space for 'Flashes of Light' that may be carrying messages from ET! He is a fund raiser for the Planetary Society that is funding a £200,000 telescope in Massachusetts that will be used to detect rays of light possibly carry an ET signal.

**THE DAILY MAIL** and it was Monday May the 8<sup>th</sup> and the post plasma story was breaking with the reaction to the Ministry of Defence Freedom Of Information with the "explanation" from various "experts" that UFO'S were 'no more than glowing balls of gas!' The Mail headlined a standard-craft with "Just a load of Hot Air" which summed up the feeling that once more the MOD and the "experts" were being hoist with their own petard.

The article writer Tom Kelly summed it all up nicely when he concluded that the MOD will never release any documents that suggest there may be some mystery surrounding UFO sightings, but the simple fact is

that some ARE mysterious.

**THE DAILY EXPRESS** article on the same date had much the same idea with an illustration of alien form which was 'just gas' and added that unexplained object over Plymouth in 2004, while the Express editor's OPINION gave it all the "hot air" he could while asking 'how should die-hard believers react to such devastating news? Easy. By dismissing plasmas for what they are-a load of hot air!'

**THE DAILY EXPRESS** had ex MOD UFO expert Nick Pope. (ex-UFO Desk 1991-1994) with two pages to fill and his little headlined bits had things such as 'one witness actually touched the UFO's Hull' and 'a UFO came close to hitting a Boeing 737' How the MOD actually coped with those isn't even clear in their 400 page tome they have sold to deserving people...doesn't include the general public then. A brief glimpse of some of the contents confirms their usual stance when in a corner

that it is not what they TELL you but what they DON'T! Or, as Nick Pope's concluding words say 'The results of a secret British Government study of UFO sightings are published today and, as a leading expert explains, its findings offer tantalising evidence that we are not alone.'

be following the spiritual story closely. very prominently there.

**THE DAILY EXPRESS** of the 9<sup>th</sup> of May featured one Nick Pope standing firm with the story of the "plasma" MOD "explanation" for SOME of those unidentified flying objects... as usual hinting this accounted for the vast majority of reports. Naturally I replied to Nick, enclosing a quite hefty collection of George's amazing photos around Portsmouth Harbour. A pleasant enough short reply said 'fascinating' with Ref. to the photos and made sure I knew the Express article was that very day, Plus the TV and other coverage. Limited. While the whole story vanished after 24 hours, never to return! Upon the advent of our George's "humanoid" photo I sent Nick a copy and with it the one of two objects by the Spinnaker Tower at Portsmouth

Harbour.

To date, two weeks later, NOTHING has been said. Unfortunately, one Thinks "hey"! Does Nick serve TWO MASTERS?

**DAILY EXPRESS MAY 15<sup>TH</sup>** and two pages with Nick Pope again in good form as the Ministry of Defence UFO Project (1991-1994) who is now boosting the MOD'S 400 page tome released under the Freedom of Information Act but not, you will note, to every Tom Dick and Harry. Although there may be a few such in the "favoured" don't frighten the Public" areas! Take the headlined small inserts; 'One witness actually touched the UFO's hull' and; a UFO came close to hitting a Boeing 737' and really big headlines tells of the 400 page report; 'he results of a secret British Government study of UFO sightings are published today, and, as a leading expert explains, its findings offer tantalising evidence that we are not alone' 'Course not! Thousands of us know that. Those that not had the experience can see what a court of law would make of that 'evidence' from thousands who provide that evidence from sheer commonsense. Plus using our instinct of knowing when FEAR drives a liar.

**THE DAILY MAIL** of May 8th heads it's usual attitude of 'if we laugh it will go away' with the headline 'UFO's just a lot of hot air' but a U-turn or just plain to hell with it Opinion the same Mail's Editor sums it up with; How should the diehard believers react to such devastating news? Easy. By dismissing these plasmas for what they are-a lot of hot air'.

### A surprise phone call...

A surprise phone call from the TV chap Johnny Lambe on Tuesday 6<sup>th</sup> June evening included a query as to had I got his email and NO I hadn't!

He wanted to know if it would be alright to come down NEXT MORNING to interview me and of course I was due to write your magazine material and we batted words around until I confirmed he could be here at 10.00 am for about two hours. He was coming by train. This all meant I had to spend the rest of Tuesday evening organising things he might want to know about.

Next morning my e-mailer showed the usual spam including his email apologising at not turning up last time and enquiring about the above arrangement...the message timed at 11.19 the previous EVENING and the envelope still shut! He arrived by taxi at 10.30 after discussing the email hiccup it got under way for one and a half hours and it all seemed to go OK although I smiled as his mind BOGGLED here! He also arranged to come back 5.30 Thursday evening with the programme presenter Chris, a photographer, and the programme organiser.

'Course, was my arranged day with George too! Rather hectic as you might have gathered and why the mag article was somewhat all to cock 'cos of those lost two hours! However, I was back here twixt buses and WALKING by 4.30 and after a hurried snack and eliminating the sweat with a towel all five of 'em turned upon time and we spent some two hours in a very detailed interview, in which they filmed ALL my wall photos, esp. George's humanoid which, with others, I'd craftily stuck in

plain view and I suggested a few books next to me on the table. Including a SUFOG mag! They wanted to drive me to a known UFO hotspot where they 'might attract an alien!' I began to see their drift! The presenter Chris kept on about HOW could he attract one! I KEPT REPEATING IT`S THEY WHO ARE IN CONTROL! Chris decided my healing might help him to gain POWERS!

True, I'd demonstrated healing on Johnny Lambe the day before after telling him he had weak joints....he admitted both knees prone to such and the next day in front of the others he claimed all pain had gone.. OK So I suggested we might go upon the local hill where SUFOG has Skywatched in the past... and even filmed our UFO twice which gained a splendid BBC Horizon Paranormal series.

We drove the few minutes up there and walked up to "our" seat on top, filming and stopping and rehearsing and such and I have to admit I was quite unhappy to have to "demonstrate" my healing again on Chris who is obviously DESPERATE to be famous by attracting an alien! He was NOT an easy "patient"! First of all he wasn't NEEDING healing. I was uneasy that if and when then prog is shown my attitude would spoil it. But I have to tell THE TRUTH at all times. Of course, the very light and sunny evening didn't help! However, it all finished around 9.00 pm and they filmed rehearsed goodbyes" in our car park here and at the front door! I am assured the video etc will be sent me for OUR private use and at the club. Fingers crossed!

A sequel; During the night...I was in bed by 10.00!... I was half awoken with one of those silent messages that come with the subject! They insisted I had missed an opportunity to solve how Chris MIGHT

obtain his desired contact....so SIMPLE IT SAID Find a UFO group in his London area. join 'em, SHARE THEIR KNOWLEDGE. Go on any skywatches Share any local "spooky" spots with a known History of such.. practice meditation. (I'd already told him that).

I am trying to contact Chris to add all this.

Ernie

PS An interesting item from that day with George and his friend Big Dave! George swore he wouldn't "get" any objects 'cos the day was Too sunny and misty over Portsmouth Harbour. I told him to keep filming. In the café there just before I caught my bus back he was closely studying the viewing panel on the back of his camera and was startled to find TWO of those black orbs and then TWO rare WHITE ones, all quite big, where we'd already scanned with binoculars the empty skies. SUFOG members will be seeing those in due course. MAYBE with more 'cos George was filming again after I left!

MAGAZINE REVIEWS  
BY ERNIE SEARS.

**PSYCHIC NEWS** 20<sup>TH</sup> May had an interesting front page article which said that a well known medium had been called in by a panel of interested people to look into the possibility of trying to get in touch with the mysterious man whose body had been found on top of a mound of coal products at the village of Todmorden in Yorkshire. His body had strange marks on it, particularly at the back of his neck, which appeared to have sustained a burn type wound. The incident made the Sunday papers since his surname was Adamski! He had gone missing for several days, ostensibly to visit the local fish and chip shop, and he was dressed very lightly considering the drizzly and chilly weather. More mystery was evident when it was asked how did he come to be at the very top of the heap. Why Todmorden?

Not only. Would a police officer. Be attending the incident at the scene but he

himself be involved in a claimed abduction, as the victim, sometime later, at Todmorden. The coroner's comment at the incident was that if he believed in such a thing as UFO's he would think very hard about this verdict! I am not surprised at the idea of "contacting the dead". As a direct result of my UFO contacts in the 1970's I acquired a healing ability to this day, with a certain amount of occasional mediumship, and will assert the TRUTH that a number of times I've had "contact" with those who have departed this plane of existence.. Like UFO contacts, "they" find you, you do not have to LOOK for them. Witnesses? Of COURSE! Proof? Ditto. Relatives confirm. You are sometimes "spoken" to...or even touched", as the story of my "dead" wife in 1982 will tell you. I shall be following the spiritual story closely.

**THE ROYAL BRITISH LEGION MAGAZINE** might seem an odd place to find anything UFOlogical but that's how the cookie crumbles!. My May 06 edition dropped through my door and it was some weeks before I got around to browsing through it and the items that interested me. On page 25, the LETTERS page, a small paragraph caught my eye.

'The National Trust would like to contact any veterans or civilians who were involved with the secret military test site at Orford Ness, Suffolk. If you would like to share your story call The Trust on 01894 450900 or email "orford ness@nationaltrust.org.uk No date is mentioned. However, dedicated ufologists will recognise the area where the Rendlesham Forest incident took place and the Lighthouse at Orford Ness featured very prominently there.

**UFOLOGIST....Beyond Imagination Lies The Truth** across it's front Cover and is, surprise surprise, a smart looking Australian product and Surprises surprise AGAIN it's a 2006 tenth Anniversary Full Colour Special Collector's Edition! So where has it been, eh? Anyway, the past Editions are shown on the front and back covers which tell us it began in 1997 and one IMMEDIATE no no for me was the habit of

### World News & UFO Reports...

The Finnish Air Force made an important disclosure presenting a video of an incident involving a military jet fighter and a UFO. According to Tapani Koivula, chairman of the Finnish research group FUFORA, the encounter took place on April 27, 2005 and it was recorded by the infrared camera aboard the fighter.

There was another UFO incident also recorded on November 2003 and both cases were disclosed by the Finnish Air Force. Researcher Tapani Koivula received the files and footage for further analysis.

In his report Mr. Koivula mentioned that, "No normal explanations have been found, neither by officials nor UFO researchers". The Mexican Air Force UFO case was discussed by them as the UFO event was also recorded on infrared camera while flying over the Campeche aerial space.

This is an important advance in the efforts for a global UFO Disclosure by the military institutions all over the world.

The Finnish Air Force UFO video clip may be seen at the FUFORA website along with the complete report.

### California Triangle....

Carmichael.. 12th May 2006...

My daughter and I were driving northbound on Manzanita Avenue at about 9:50 PM, on May 12, 2006. We were approaching an intersection to come to a stop when we saw very chaotic flashing deep red and brilliant white strobe lights in front of us. They were in the north sky. There were other cars around us. We were able to see a shape like a straight line. It was horizontal and moving from slanted left to right. It was very large the size of the full moon or bigger. It suddenly pulled away further north faster than we could track it.

Our light turned green but all the cars were hesitant to go including myself. I finally resumed driving north keeping my eye on the object which was still strobing. The object came to a sudden stop while we were still travelling north for four minutes. The object was actually very close to a light tower off in the distance and it just sat there hovering. The lights went off and the object was a dark triangle. Then, very

quickly white lights appeared on top of the craft in a cone shape. Then, it seemed to shift but we couldn't tell if it was clockwise or counter clockwise. The cone shaped light appeared on the bottom of the craft and the lights were a deep red. It began circling the tower in a clockwise direction several times. We were getting ready to stop. I looked up towards the object and the object was gone. Thanks to Peter Davenport <http://www.UFOcenter.com>

Marshall County, Minn....

'UFO Car' Beams Into Spotlight...

Producers from History Channel to visit historical museum today... By Susanne Nadeau  
Herald Staff Writer

Late one August night, almost 30 years ago, a mysterious flash of light bore down on a Marshall County deputy as he was patrolling the western edge of the county.

The light lasted only a few minutes, before Sheriff Deputy Val Johnson, who was driving along Minnesota Highway 220, lost consciousness of time.

A few minutes grew into half an hour - 40 minutes, before Johnson became aware of the night again, and when that happened, damage had been done to his eyes and his squad car.

The cause of the light has remained a mystery since August 1979. And it's been the subject of much speculation. Enough speculation to draw the occasional interest of publications and television producers, according to Ethel Thorlacius, the director of the Marshall County Historical Museum.

Today, Thorlacius said, producers from the History Channel will be visiting the museum, which houses the squad car Johnson was driving that night.

The car retains unusual damage, she said, from a broken headlight to a long dent in the hood, a hole in the windshield and an antenna bent at a 45-degree angle.

It's become the county "UFO car", though Thorlacius said there's no way to know what caused the damage.

"I believe that there was something outside that car that was responsible for the damage", Thorlacius said.

A UFO, a ball of lightning, St. Elmo's fire, all come up on Thorlacius' conjecture list.

"You would have to see the damages to understand how unusual they are", Thorlacius said. "It's, well, it's like something went right over it, rolled over it."

Maybe she'll never know how the damage occurred, but she will have many more opportunities to discuss it as interested parties come through to talk about it.

"I know there are a lot of people who believe that nothing really different happened", she said. "It's controversial, just like anything about the unknown."

UFOs Exist - It's Official!

The MOD has today published the results of a once-highly-classified official investigation into the existence of Unidentified Flying Objects. The report concludes that UFOs exist - but are a mixture of natural and-man-made phenomena, rather than evidence of extraterrestrial life.

The report examines 'UFO' sightings collected over a 30 year period, to ascertain whether there is any evidence of a threat to the UK and to identify any potential military technologies of interest. The study was not conducted to substantiate the existence of extraterrestrial life-forms but we can confirm that no such evidence was found.

As for 'UFOs', or Unidentified Aerial Phenomena (they're not always objects), the report concluded that while people reporting sightings are often genuine, rational explanations such as aircraft lights or natural phenomena, including meteors forming 'buoyant plasmas', can explain them.

The report concludes that none of the UFO reports the MoD received had any Defence Intelligence value and led to the decision in December 2000 that the Defence Intelligence Staff no longer had any need to continue receiving UFO sighting reports.

Under Secretary of State for Defence, Tom Watson said:

"I am delighted that the Freedom of Information Act has meant that this once Secret report has been declassified and made public. In a department where lives are literally on the line and we can't release every document we have, this is yet more

evidence of the MoD's commitment to openness."

The study, titled Unidentified Aerial Phenomena in the UK Air Defence Region, was conducted between 1996 and 2000 during a policy review into the handling of UFO sighting reports by the MOD. The report contains sensitive information concerning the UK Air Defence Region and was therefore classified Secret and given a limited distribution. Until the introduction of the Freedom of Information Act 2000, all government records were closed from public viewing for a period of 30 years after the last action was taken.

The report has been released now because MoD received a Freedom of Information request for a copy of the report. Embracing the spirit of open government, and despite the size (over 450 pages) and original classification staff have taken great care to ensure that the majority of this large report is made available.

There is a real an enduring interest in Unidentified Flying Objects. By far the most popular topics of FOI requests has been UFOs, followed by Recruitment enquiries; enquiries from staff; and historical events such as World War Two, the Falklands conflict and the Balkans. Recent FOI MoD releases on UFOs have attracted media interest from as far away as Japan.

(Report available from editorial address on CD ROM (PDF Format) for £3.50 including postage.

### Your Points of View...

Hi Steve,

The West Kilbride UFO Hotspot case solved?

I was reading the 'Alien invasion of UFO Hotspot West Kilbride' article on pages 7&8 of the Mar/Apr 2006 SUFOG newsletter taken from 'The Scotsman' (To recap, in the article dated Thu 2 Feb 2006, it said "reports released by the Ministry of Defence (MoD) revealed that West Kilbride had the highest number of recorded sightings of flying saucers in Britain during 2004"), when I remembered researching 'Bonnybridge' a year or so ago and thought that honour went there, indeed a quick search uncovered a quote from the very same publication on Thu 8 Apr 2004 stating; "Its official - Bonnybridge is the UFO capital of UK". according to Nick Pope who ran the UFO desk at the MoD between 1991 and 1994".

Anyway, what's more important to me than 'The Scotsman' making their mind up on the precise location of the actual holder of the 2004 UK UFO Hotspot (a quick bit of research will show that these two places are only 40 miles apart anyway, and are in an area called the "Falkirk Triangle" which is responsible for most of the 300 reported UFO sightings in Scotland a year) is why people should be baffled by UFO sightings in this area. The publication goes on to say; "For many years, it has been clear something strange has been going on in this small community a few miles from Falkirk, and quotes Stirling-based UFO writer Ron Halliday as saying "But it does seem to be a bit of a mystery why Bonnybridge should be a

target of spaceships from other planets." Even the late Graham Birdsall, former editor of UFO magazine, said: "UFOs tend to be attracted to regions that are fairly remote, plus, if you have a remote area, look out for airbases - Scotland is littered with airbases."

In my opinion (and am I the only one here?) they are all overlooking something very obvious, which is that UFO's often appear near Nuclear Weapons facilities. indeed, the MOD's own website states "submarines armed with Trident nuclear missiles provide the nation's strategic nuclear deterrent". And where do you think the base for these submarines is? Its HM Naval Base at Faslane, which is on the river Clyde and approximately equidistant between West Kilbride and Bonnybridge. Of course these sightings could be merely a coincidence? The good old 'Scotsman' goes on to remark "West Kilbride had a total of 12 sightings during 2004, which makes it Britain's closest rival to the UFO capital of Roswell, New Mexico." Now, I always thought that honour went to the 1980 Rendlesham Forest incident, and it was regarded as the 'British Roswell' because that they both undeniably issued (actual but quickly covered up) military reports of crashed/landed UFO's.

Interestingly though, is that in July 1947 when the Roswell UFO crash was reported, the 509th Bomb command based at Roswell (and the home of the Hiroshima and Nagasaki bombers) was the only nuclear air group in the world. And in the 1980 Rendlesham Forest incident, which happened over the joint UK/US RAF bases of Bentwaters and Woodbridge, was also where US nuclear bombers were stationed. On the subject of the many recent UFO

sightings over Portsmouth Harbour, a quick search on the internet reveals that Portsmouth Naval Shipyard "has become a leader in the repair and overhaul of nuclear-powered submarines (and presumably the ones carrying Trident missiles) and the three birthing dry-docks are capable of docking all active classes of submarines in the U.S. Navy, for overhaul and nuclear-reactor refuelling. So, I wonder if this could be the reason why UFO's seem very interested in this area also?

Cheers - Mark Easen.

I did read a quite stupid, arrogant article in the Times about the end of the UFO phenomenon....! (Having had four letters not printed by that paper, I don't write to it any more, but I considered it.)

Dear Editor....

I you will print this. The photos on the cover are very clear and good (SUFOG Newsletter Number 185/6 March/April 2006). The contents also interesting, but I take umbridge at your article written by whom? Page 17. Timothy Good of

Beckenham is not an author of several novels on UFO's. He is a friend of many years standing and I can tell you he takes years researching facts for his books. I have written 5 books and I can tell you writing factual books require dedicated research work 12 hours of the day for months and months. This is Tim's career now and his contribution to UFOlogy should be acknowledged...

Margaret Fry...

Wales Federation of Independent UFOlogists.

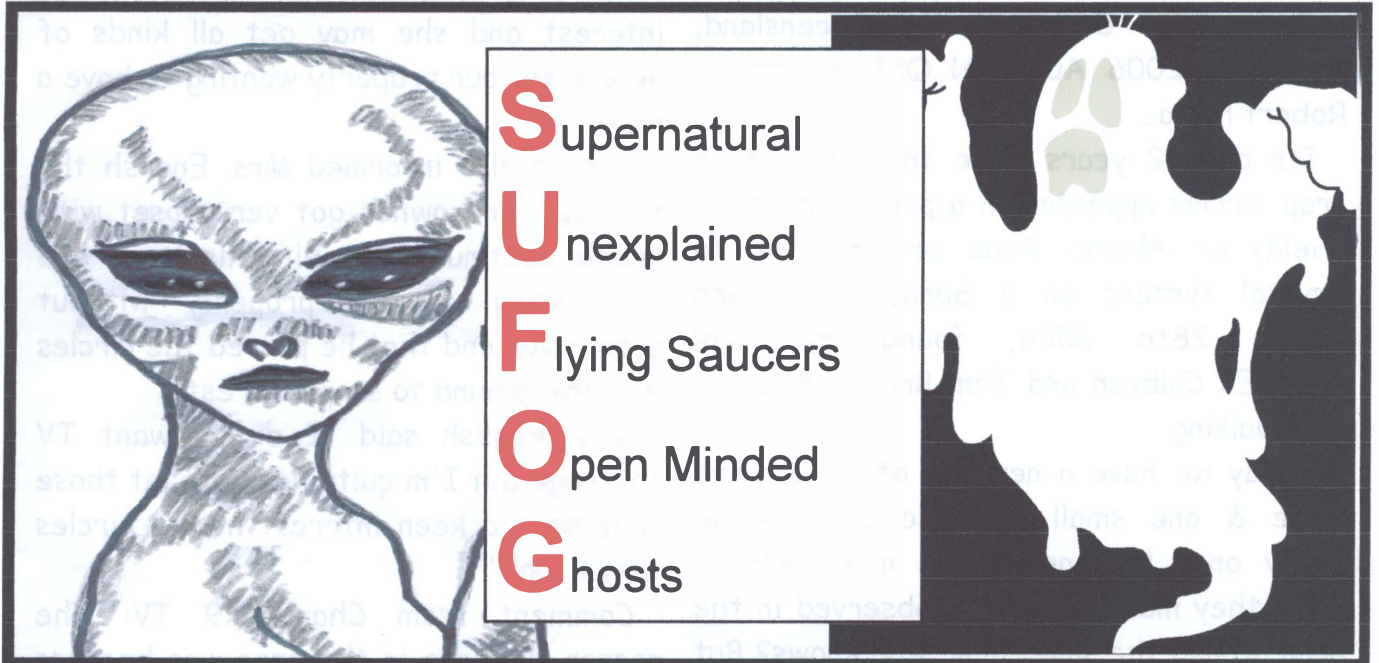

Editor...

I totally agree with everything Margaret says above about Timothy Good. I have also known Tim for many years and he gave an excellent talk at SUFOG's 10 birthday celebration conference in 2002. He should be given credit for his excellent books and research on the UFO subject. The item that appeared in the newsletter was taken from the Doha Times. Yes, the journalist referred to Tim's books as 'Novels' something that Tim's book certainly are not. Was he using journalistic licence when he wrote the item or was this how he saw Tim's books and UFOlogy?

All subscribers have the right to say published in the SUFOG magazine. Although the editor has the rights not to published any letters that he feels will do damage to the magazine, or remove part (s) that may, we would like to hear you comments of UFOlogy in the UK or around the world. ### Big Cat Sighting...

Source : Southampton Evening Echo...  
2nd May 2006...

A panther-like animal was sighted in the New Forest on the A31. The animal was seen

wandering in a field around 7.45 p.m. on the 26th April. It was prowling close to a herd of New Forest ponies. The student saw the creature between Stoney Cross & Picket Post in the New Forest. The creature was black with a small head and a long tail. It couldn't of been a domestic cat as he got a good idea of scale against the ponies and it was far too big.

There were 2,123 sightings of big cats between April 2004 and July 2005, with the South-West the hot spot for sightings. Dorset and the New Forest have provided a steady stream of sightings, with Dorset police logging about 30 calls a year by 2003.

### 2006 Crop Circle Formations...

Connondale Crop Circle Queensland, Australia, 2006 AUFORN QLD report by Robert Frola...

Its been 2 years since the last set of crop circles appeared in a private paddock [field] on Aherns Road on the way to Crystal Waters on a Sunday afternoon March 28th 2004, found by local boys, Eli Colbran and Tom Braby while out bushwalking.

Today we have a new set of circles one large & one small and the question on every ones lips, are these man-made or were they made by a UFO observed in the area around the same time, who knows? But AUFORN will travel to the area this week to continue their investigation.

For those interested, Mrs. English called AUFORN to have a chat about the circles on her property.

Phone interview with Robert Frola AUFORN Qld

Q: Robert asked Mrs. English if she had seen the crop circles from 2 years ago.

Mrs. English said "I was aware of the previous circles which appeared on the Aherns road property in 2004 but at that time we were away in Emerald, central Queensland, where they had 4 or 5 circles appear. We only have 2".

Mrs. English said "they don't appear to be man-made but we don't know....I can't see how they could be man-made but that's all we know. They're just there".

Mr English said: "We didn't discover them, someone else did and they passed this information on to someone who knew someone who was into UFOs. His name was Chris and he rang my mother in-law and asked if he could take a look. He took measurements and 7 photos".

Comment: Robert informed Mrs. English that TV coverage could stir quite a bit of interest and she may get all kinds of people on your property wanting to have a look.

Robert also informed Mrs. English the previous land owner got very upset with people continually climbing his fence and trespassing on his property without permission and that he plowed the circles into the ground to stop interest.

Mrs. English said "I didn't want TV coverage but I'm quite happy to let those that have a keen interest in the circles take a look".

Comment from Channel 9 TV: The reason we were in the area was because we had a team up in Maleny covering the opening of the new Woolworth's store. It was just good timing.

Mrs. English tried to think of what or who could have made the circles and informed AUFORN she believed in the possibility of life out there in the universe.

Mrs. English said "we really have no idea what's done it, certainly we haven't done them and it seems unlikely that someone else would come into our place and do them. I don't know if there is any technically way or who would do it". "There's no holes in the middle" indicating if man-made, then maybe there should be, "but there is a slight cone of grass in the middle of one of the circles and we did have 2 reports of people who reported seeing something in the sky at about that time, over 2 nights".

Mrs. English said "the circles had been there since Thursday that she is aware of, but they could have been there longer as they were only found this Thursday 30

of March.

"The lady who lives across the road who I don't know and have only met today, she was on TV. She saw something in the sky and heard lots of noise. My goats freaked out and they wouldn't go away from the house for a couple of days. I just thought there could have been dingoes around and maybe that's what upset them. I didn't know about these crop circles at the time. Whether that's connected or not I don't know".

Mrs. English said: "This fellow Chris and his wife and mother in-law saw something hovering about that time also, and the lady across the road reckons she saw something, but we my husband and I didn't hear anything at all".

### The Daily Mirror... 15 June 2006 Matt's Pollen Out.

Crop circle king Matt Williams has been forced to quit - because he has hay fever.

Matt, 35, is giving up his controversial hobby after being laid low by high pollen levels.

He sniffed yesterday: "I'll not be out this year - the hay fever is getting too bad. After a night in the fields, it takes me at least a day to recover." Matt, of Devizes, Wilts, is the only person ever convicted of crop circle-making.

He was fined £100 in 2000 for damaging crops after setting out to debunk claims that the complex circles could only be made by aliens.
